Subject: Labeling Notification per Pesticide Registration Notice (PRN) 98-10 – Acceptable Revision to Add Language Inadvertently Omitted from Previous Label, “For Organic Production”
Product Name: CheckMate SF Dispenser
EPA Registration Number: 56336-27
Application Date: 09/29/2017
OPP Decision Number: 534396

Dear Ms. Trager:

The U.S. Environmental Protection Agency (EPA) is in receipt of your application for notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Biopesticides and Pollution Prevention Division (BPPD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The labeling submitted with this application has been stamped ‘Notification’ and will be placed in our records. You must submit one (1) copy of the final printed labeling with the modifications.

Should you wish to add/retain a reference to your company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and is subject to review by the EPA. If the website is false or misleading, the product will be considered to be misbranded and sale or distribution of the product is unlawful under FIFRA section 12(a)(1)(E). 40 CFR § 156.10(a)(5) lists examples of statements the EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the EPA find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA-approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance Assurance.

If you have any questions, please contact Alex Horansky of my team by phone at (703) 347-0128 or via email at Horansky.alex@epa.gov.

Sincerely,

CheckMate®

SF Dispenser

A BIOCHEMICAL PESTICIDE FOR MATING DISRUPTION OF ORIENTAL FRUIT MOTH

(*Grapholita molesta*) and PEACH TWIG BORER (*Anarsia lineatella*)

FOR ORGANIC PRODUCTION

DUAL DISPENSER SYSTEM

ACTIVE INGREDIENTS (OFM Dispenser):

(Z)-8-Dodecan-1-yl acetate	8.06%
(E)-8-Dodecan-1-yl acetate	0.65%
(Z)-8-Dodecan-1-ol	0.09%
Other Ingredients:	91.35%
Total:	100.00%

NET WEIGHT: Active ingredient total of 180 mg pheromone blend per dispenser.

ACTIVE INGREDIENTS (PTB Dispenser):

(E)-5-Decen-1'-yl acetate	8.34%
(E)-5-Decen-1-ol	1.73%
Other Ingredients:	89.93%
Total:	100.00%

NET WEIGHT: Active ingredient total of 200 mg pheromone blend per dispenser.

KEEP OUT OF REACH OF CHILDREN

CAUTION

See side panel for Precautionary Statements and First Aid.

NOTIFICATION

56336-27

The applicant has certified that no changes, other than those reported to the Agency have been made to the labeling. The Agency acknowledges this notification by letter dated:

WARRANTY AND LIMITATION OF DAMAGES
To the extent consistent with applicable law, Suterra® LLC warrants that this material conforms to the chemical description on the label and is reasonably fit for its purposes set forth in the Directions for Use. To the extent consistent with applicable law, Suterra LLC neither makes nor authorizes any agent or representative to make any other warranty of fitness or of merchantability, guarantee or representation, express or implied, concerning this material. To the extent consistent with applicable law, Suterra LLC's maximum liability for breach of this warranty shall not exceed the purchase price of this product and to the extent consistent with applicable law, the buyer and user acknowledge and assume all risks and liabilities resulting from the handling, storage and use of this material contrary to label instructions.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if absorbed through the skin or inhaled. Causes moderate eye and skin irritation. Avoid contact with skin, eyes and clothing. Avoid breathing vapor. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove contaminated clothing and wash before reuse.

FIRST AID

If INHALED: Move person to fresh air. If not breathing call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a Poison Control Center or doctor for treatment advice.

If ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.

If IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a Poison Control Center or doctor for treatment advice.

HOTLINE NUMBER: Have the product container or label with you when calling a Poison Control Center or doctor or going for treatment. For emergency information on product uses, and treatment, etc., call the National Pesticides Information Center at 1-800-888-7378; 6:30 am - 4:30 pm Pacific Time (PT), 7 days a week. Otherwise, call the Poison Control Center at 1-800-222-1222.

ENVIRONMENTAL HAZARDS
For TERRESTRIAL USES: Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the high water mark.

DISPENSERS

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
CheckMate® SF Dispenser is a biochemical product (pheromone) which functions by mating disruption. It is to be used in pest management programs for control of oriental fruit moth (*Grapholita molesta*) and peach twig borer (*Anarsia lineatella*). The OFM and PTB pheromones are each contained in and released from separate solid matrix hand applied dispensers, included on the same attachment device, for ease of application.

METHOD OF APPLICATION

For use on peaches, nectarines, apricots, plums, prunes, cherries, almonds, and any other stone fruit and tree nut species where these pests are a common problem. CheckMate® SF Dispenser is to be applied during the flowering period of the tree. Apply the CheckMate® SF Dispenser early in the season after detection of the first oriental fruit moth and prior to the first peach twig borer moth, using separate OFM and PTB pheromone traps such as BioLine®. This product only affects adult male moths, and will have no effect on female moths, eggs or larvae. If application occurs following birth of PTB the first, PTB moths are found primarily in pheromone traps such as BioLine® or during the growing season, the orchard must be treated with insecticide treatments that will effectively control hatching larvae by previously mated female moths has ceased to occur. In moderate to high insect pressure situations, supplemental insecticide applications during the season to protect developing fruit must be made based on trap monitoring, field scouting, and appropriate degree day models for the local growing area and must be timed to control emerging larvae. Follow the BioLine® Technical Bulletin's for trap placement. Monitor for insect infestations with traps and by visual inspection in trees, shoots and fruit. Re-apply CheckMate® SF Dispenser based on monitoring results and field scouting. Do not exceed 150 grams a acre/year or either of the pheromone active ingredients (or one 750 dispenser attachment device acre/year).

Apply dispensers to thumb-size limbs of crop to be protected. Place dispensers in the upper one-third of the canopy of the tree. Distribute dispensers uniformly throughout the block. If there is a persistent and prevalent wind, apply one dispenser attachment device to every tree on the upwind side of the orchard and then evenly distribute the remaining dispensers in the block. Wash hands after application. Do not handle other types of insecticides before or after dispensing CheckMate® SF Dispenser. Monitor treatments carefully for secondary pests. Do not use CheckMate® SF Dispenser from damaged, punctured or unsealed containers.

STORAGE AND DISPOSAL

DO NOT contaminate water, food or feed by storage or disposal.
PESTICIDE STORAGE: Store container in cool place until used. Reseal containers immediately after use. Store unused product in a refrigerator or freezer not for food storage.

PESTICIDE DISPOSAL: Wastes resulting from use of this product may be disposed of on-site or at an approved disposal facility.
CONTAINER DISPOSAL: Plastic containers: Non-reliable container. Throw away or recycle and dispose in a sanitary landfill or rinsing (or equivalent). Then offer for recycling or reconditioning or purchase and dispose in a sanitary landfill or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke. Bag/Cartboard Box: Non-reliable container. Do not reuse or refill this container. Dispose of empty bag/cartboard box in a sanitary landfill or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.
